Thank you all.

CLEARING /LOADING & TRANSPORTING THE CONTAINER TO NAIROBI.

We thank Mr. Wilfred and Joshua Oluga who helped us in clearing the same from the port. We thank Bayusu himself and Mohamood, the driver and turn boy all of Bayusuf and Sons Transporters who gave us a low price to transport the same from Mombasa to our school in Nairobi. The off-loading of the same in Nairobi was done by some of our students and we thank them as well.

SHIPPING

Then we would like to thank RTM.OceanExport, Aramex, Mrs Cilla Kraan, Cees Ketting, who offered Rob for us a reasonable price for shipping our container. We thank you all who were involved in shipping the same.

LOADING IN HOLLAND

We then take this opportunity to thank the Holland Loading Boys (We did not get to know who they were) but thank you. Richard, Philippe, Vinnie etc and Mr. C.A. Tresfon all from Egripment for giving us his place for storing and loading the same.

CLASS-TRAINING:

As per our last letter to you, our class still continues and we are still on the right track with teaching and training the youth as our core and main business and our objective, as seen in these pictures. There are many challenges that keep on bombarding us. We have gone through the hardest part and we believe that we are almost at the peak. Thereafter we hope to start sliding down more easily than now when we are still climbing.

EFP-TRAINING:

We have been training outside on the job training and also in the studio in EFP with for example doing interviews and putting our students to do various tasks and or disciplines. This they liked very much because they test each discipline and get the real feel of it. This is challenging but very interesting.

Some of the top students that are working very hard to learn many things include the following: Alex, Brian, Richard and Ruth. You can watch some of their clips on the following link:-

FUTURE TRAINING PROJECT:

As we start to embark on a journey of becoming self supporting financially, we have started working on possibilities. We are looking for a possibility to start our tv show. We are in the research and trial/pilot. At the same time for our student we have started doing short and small clips also to support other micro institutions as seen here for Seed Academy. (Please follow this link)

Seeds donation:

<https://plus.google.com/110529949679190417181/posts/cJ1hH-nur3n6>

FOCUS AND MAIN OBJECTIVE STILL GOES ON:

However no matter the direction of the wind, no matter the weather and no matter the height of the waves, the training still continues here at school and also in the field to equip these young people a career and a better future as seen in these pictures.
