

# JAMBO from Busia, Kenya

## "Yes, We Are still On Track"

### Welcome to our news letter

Dear Sponsors and supporter thank you for all your support to our school project and thank you for making this happen, For without you, we would not be where we are today.

As you can see

WE ARE STILL ON TRACK

even when Lizz was visiting her friends in Holland for a few months, there was a youth training project going on.

*"As you can see here in this picture here above, I am also back in Kenya and I had the opportunity to recruit the new comers in our training. We are still training to empower the youth in this is our major goal and main objective."*

### Buying Time with TVET Ministry of Education updates

Because we are late with the setup of the equipment, furniture and accessories in our school in order to be inspected as required by these authorities, to buy more time, we have written to them to give us time because 90 % the furniture and all the equipment of the class and training audio and video studios is still on transit in Holland. (as you can see in these pictures)

We have also written to NITA, a (National Industrial Training Authority), seeking to be a member just to buy more time. As we sort out the above issue.

## Our youth training empowerment projects in busia

Mean while. Elizabeth was on a visit in the Netherlands, to visit friends as well as to help us to meet our sponsors, donors and supporters to achieve this campaign for upgrading and upscaling our school, back in Busia, different training projects were in full gear to train and empower various youth for making positive changes for them to be financially empowered individually in their communities.

Mr. Ephy Mirula was training the youth on the fundamental and basic Videography and photography editing, (as seen her on right).

Mr, Mabwa was busy in paper work and in communication with the TVET and other other authorities to make sure that we never close down and also teaching our students camera and audio production theory as well as working on the studio. (as seen here on Left)

Mr. Rama Sifuna was teaching them how to conduct television interviews, and how to relate with the public and work in the public domain as they focus to achieve quality content. (as seen here on Right)

Mr Namwamba Onyinyi, who is our mentor, is the one who talks to our students and tries to mentor them and especially spiritually as well as forus on the harvest, so that they can perform well in this training and in future fields.

Miss Ephy Mirula was also empowering the youth and training them in basic Photography and Videograpy.

## The opportunity Financial, Advise and Material Support

During Elizabeth's visit to the Netherlands, she got an opportunity to meet many of our supporters, people, friends and colleagues within the media, whom many were very happy on the noble work we were doing of training and empowering these youth. In fact many were willing to support the school with updated training equipment, and contribute to the shipment, and or buying us new equipment and many were also willing to support us our school as a monthly sponsor. The monthly donation is a very important element. It keeps the doors of the school open and the life and light of the school keeps-on burning even when it seems as if nothing is going on. We are still alive because of this lifeline and for that we thank you all in advance.

### Some of those who promised and contributed and support us include:-

Deadline producties, lichtmacht, Egriment, Vocas Egriment, Grafisch Lycem Rotterdam, EMG, Mattissen Camalot, Ampco flaslight, Mattissen, Open studios, Broadcast Rentals De Herrieborderij

### Other individuals who promised to support us, advised us, and or donated finance and material include:-

Angelique and Mr. Joop, Marteen Meyers, Quirien De leeuw, Monique Q, Ron van de Lugt, Henry-Monique's neighbor in Nieuwegeen, Tjerk Laan, Philippe Trefson, Andries Kooijman, Donkers Roy Voortman, Tirek, Tom and Oascal, Jelle Hidma, Robert Berger, Andery Kan and Joop verlinder, Ton Driesen, Mo Koderi, Miss. Linda, Dick Wakker, Pieter van Roijen, Frank steenbeek, Remco Palke, Silvio Oscan, Navid Nasa, Arjan of Akkermans, Raymond Massier, Sebastiaan van Zuylen, Twan, Scato Ypma, Roel Ypma, Richard Schoonhoven Gratitude to all of you who have contributed in any way to our existence.

### Acknowledgement and Gratitude to all our Monthly supporters/sponsors

We Take this great opportunity, to acknowledge all our new as well as old committed monthly supporters.

Your monthly donation is a very important element. It keeps the school doors open, and is the life and light of this school which keeps-on burning even when it seems as if nothing is going on. We are still alive because of this lifeline and for that we thank you all in advance.

### Collaboration with schools in Holland

For future collaboration and partnership, Elizabeth visited media and Film schools including, Roc Hilversum, Roc Amsterdam, Netherlands Film Academy. Hogeschool Utrecht and Open studios to establish a connection for future teachers and students working and training programs of our future collaborations.

And many colleagues  
and friends not men-  
tioned here. Thank  
you all We appreciate  
all your support.

**Yes our donated equipment, accessories**

that we urgently need for our school is still in Holland, as you can see in these pictures here on right.

We raised some money from well wishers but it is still not enough.

We still need your full support on this, so that we can ship it to our school to display it and to upscale our training school as per the rules and regulations of TVET and the Education Ministry.

**WE APPEAL AND ARE CALLING ON ALL WELLWISHERS AND TO ALL WHO PLEDGED AND PROMISED TO SUPPORT OUR NOBLE WORK IN KENYA**, with Equipment And partly share the SHIPPING and LOGISTICAL Costs To PLEASE KEEP YOUR PROMISE.

We request you to help and support us with this noble course and duties we are doing, so that we can REMAIN on TRACK and so that we can achieve our goal to ship all the things to our school that the Ministry needs so as to inspect our school and offer us a Diploma training license for the future ASAP.

**“Yes, we are still on track”**

As you can see, here on this (picture right), these are students who just finished and completed an editing and basic photography and are happily congratulating themselves after completing their course by pinning the finale results of their friends and family. As of now one lady student is employed by the county of Busia and the other is now working for the church. For us here at Multimedia Academy, these are the results that give us a reason to go on. To us this is a harvest and these students give us energy to move on. To make this school a better and modern learning platform that will continuously educate train professionally, equip youth individuals and empower them with skills that will eventually give them a financial voice within their families and the community at large.

**THANK YOU VERY MUCH FOR ALL YOUR SUPPORT.**
